Designed by Connie Glennon-Hall

SUPPLIES & TOOLS:

- Walnut Hollow Clockworks kit
- Wood trims
- Acrylic paint, 4 or more coordinating colors
- Ceramic beads
- Tacky glue
- Paint brushes
- Sandpaper
- Saw
- 3/8" Drill

DIRECTIONS:

1. Cut wood trims approximately 15" long on a diagonal.
2. Paint each trim, not rinsing brush as you add more colors, so there are color variations in each. Let dry, then distress with sandpaper.
3. Arrange trims in a pleasing, "rough" oval shape. Saw trims as necessary for the desired shape. Touch up paint on cut edges.
4. Drill a 3/8" hole in the centered position for the Clockworks timepiece.
5. Cut 2 strips of wood trim the dimension of the height of the clock for backing. Glue the two strips perpendicular to the back of the horizontal boards, spacing them so the Clockworks pieces fit between them on the back. Allow glue to dry.
6. Assemble rest of clock, following Clockworks directions. Glue ceramic beads around clock mechanism in position of hour markers.

Skill Level 2: Some woodworking experience helpful

Approximate Crafting Time: 3 hours

Due to seasonal nature of project, supplies are available for a limited time only. Please read all instructions prior to beginning; read and follow all manufacturers' instructions for all tools and materials used. Provide adult supervision if children participate in this and all craft projects.
